

Farm360™

All-Natural!

Eco-Friendly Purifying & Cleaning Solution

Ideal for coops, pens, stables, bedding and yards

Breaks down organic waste • Eliminates odor-causing compounds
Improves bedding quality • Neutralizes ammonia • Reduces fly attractants
Helps maintain a healthy, sustainable environment for farms and backyards alike

Ingredients: Rice bran extract, Soybean meal extract, Rice flour, Corn protein, Proprietary microbial blend, Sodium chloride, Citric acid.

Directions: Mix Farm360 with water at a ratio of two teaspoons per gallon. Measure a quantity of Farm360 powder based on the total amount of water to be sprayed, then pre-mix with water. Stir well and let stand uncovered for 30 minutes to one hour. Disperse mixture with a garden sprayer, plant waterer or other device. One gallon of spray solution will cover an area of approximately 40 square feet. It is recommended that Farm360 be the final treatment applied after other types of cleaning agents have been used. Apply once per week, or as needed.

Storage: Keep in a cool, dry area, out of sunlight and humidity, between 33° and 103° F.
